# UPN-EHLCB-A10-001

Assembly SOP

Step 1: Prepare the materials

# **Make sure you get all materials ready:**

1. UP Squared 6000
2. Carrier board
3. 7x Studs
4. 2x nuts

Step 2: Fix the studs

Main board Setup:

1. Find the edge with eDP conn.

2. Remove the 2 screws on the board which are used to fasten the heatsink.

3. Replace with 2 studs to fix the heatsink.
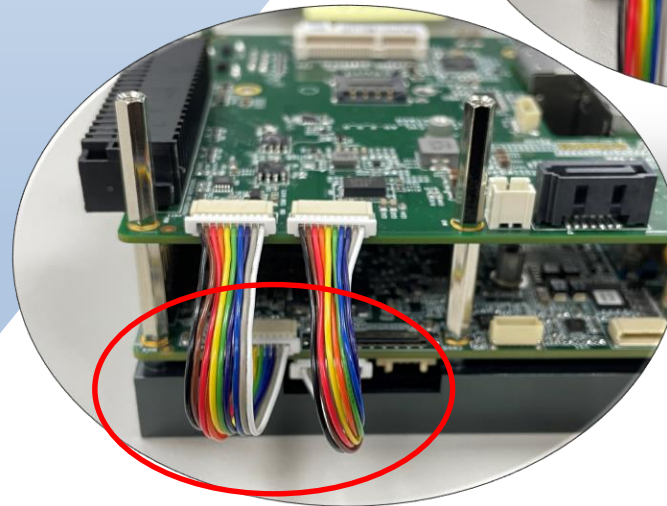

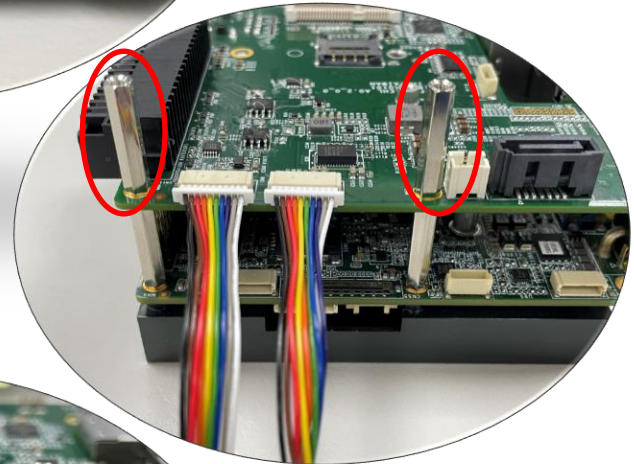

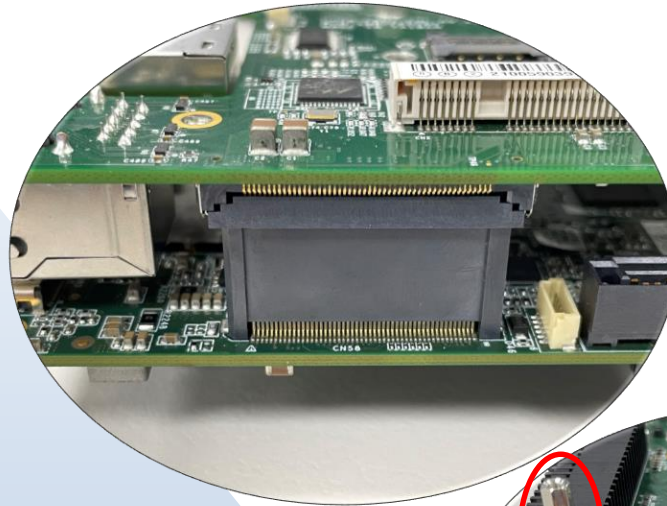

Carrier board Setup:

1. Find the holes next to LAN port and SATA port on carrier board.

2. Fasten the 2 nuts and 2 studs together.

3. Fix one stud to the hole behind the LAN port.

Step 3: Assembly

Assemble 2 boards:

1. Connect 2 boards via 100pin conn.

2. Fix the last 2 studs on carrier board as the stands.

3. Plug in the 2 cables to main board.

Thank you!
